

Restart gameplay where you left off

Introduction

Being able to save the game and pick it up where you left off is coming as a feature. Meantime, here is a simple 2-step solution.

You can use the helpful table below to make your notes.

Step one

Before you close the play:

- Click on each card deck to see the next card and note below
- Click on each player gameboard pawn and note which Resilience Builder cards they have in their bank. Note them below too.

Step two

Before players arrive to play the game again:

- Launch the game
- Click on each card deck until you get to where you left off
- Remember as you click through the Resilience Builder cards add them to the relevant player's bank.
